

SUNDAY, JULY 30, 1893.

THE NATIONAL SILVER CONVENTION.

General Warner, president of the national bimetallic league has arranged the details of the silver convention, which is to meet at Chicago next Tuesday. The convention will be devoted to a discussion of the situation. A committee will be appointed to prepare resolutions and an address to congress and the country, which it is hoped will arouse the people to a sense of the dangers threatened by a single gold standard.

Among the speakers will be Senators Jones and Stewart of Nevada, Senators Teller and Wolcott of Colorado, Congressman Newlands of Nevada, Bryan of Nebraska, Bland of Missouri and Pence and Bell of Colorado. All the silver states will be well represented and large delegations will be in attendance from the west and south. There will also be delegations from New York and other eastern states, and General Warner feels confident that it will be the largest and most influential convention of the kind ever held in the country.

The New York delegates have adopted resolutions expressive of their views on the silver question. They say official statistics show that the price of silver has controlled the prices of most of the products of American labor, and especially of wheat and cotton for twenty years. They assert that the decline in the price of silver bullion and contraction of the volume of legal tender paper money caused a tremendous fall in prices of wheat and cotton; that English influence is behind the efforts to put down the price of silver, and that it is the first duty of congress to study the effect the price of silver has on other products of labor before determining on any fixed policy changing its present ratio with gold, or before running all American producers by withdrawing the slight support silver now has under our laws.

The New Yorkers desire to know why treasury officials are governed in their purchases of silver here by the price placed upon the metal in a foreign country and declare that congress should investigate the matter.

THE HAWAIIAN ISLANDS.

Washington dispatches said to be based on reliable authority state that the president will send a special message to congress on Hawaiian matters early in September. What the president's recommendations will be are unknown as to details, but it is understood that he will not favor annexation. The state department officials are reticent on the subject but it has leaked out, nevertheless, that the president will suggest a treaty giving to the islands the moral support of the United States to an extent that will prevent interference from other foreign powers, but at the same time will not make this country responsible for the internal affairs of Hawaii. The administration believes the islands are capable of home government, if not molested by outside influences, and will undertake to prevent such molestation in consideration of certain privileges which will be expected from Hawaii.

The policy of the administration seems to be to give the islands opportunity to govern themselves by guaranteeing them immunity from foreign interference. No attempt will be made by our government to restore the monarchy, though the impression prevails that the queen was dethroned by the co-operation of the United States representatives then in Hawaii. The United States has recognized the provisional government and will not be instrumental in overthrowing it. The administration, as now understood, is to establish a protectorate over the islands and let the people regulate their domestic affairs to suit themselves.

A WALL STREET LIE NAILED.

The *Silver State* doubted the correctness of the interview with Senator Stewart reported in the *New York World* on the silver question and to ascertain the facts sent the following by telegraph:

WINNEMUCA, Nev., July 27, 1893. To Senator Wm. M. Stewart, *Holland House, New York City*:—Is your interview with the *World* reporter as given in press dispatches correct?

"SILVER STATE". The following answer was received: New York, July 27, 1893. To *Silver State, Winnemucca, Nev.*:—I was misrepresented. I have written letter correcting it.

WM. M. STEWART. Commenting on the senator's reply the *Silver State* says:

"The means resorted to by the goldbugs and the hiring press to create a false impression and to deceive the people on the silver question have no parallel in the former annals of Wall street crimes and journalistic depravity. If the devil should set a cockatrice he could not hatch out such a litter of stinky and venomous reptiles as these conspirators against human happiness and human happiness. The people throughout the country have become thoroughly aroused to the importance of more money and bimetalism and to the threatened danger of adopting the European system of finance—the gold standard—by our government, and are holding mass meetings daily to protest against such a suicidal policy. To stem the tide of the popular silver wave, which is now rolling and surging in the channels of public opinion, the *New York World* sought an interview with Senator Stewart, the great champion of free coinage, and his opinions and words were deliberately misrepresented and garbled and telegraphed and published in the *Examiner*, an annex to the *New York Wall street organ*."

WHO WILL GET IT?

The Reward for the Bandits to be Contested for in Court.

A REVOLTING TRAGEDY.

The Erie Receivership—Will Keep Paupers Out.

THE EVANS AND SONTAG REWARD.

The Courts Asked to Decide Who Is Entitled to It.

LOS ANGELES, July 28.—Wells, Fargo & Co. have made up their minds that they will not be bothered by the claims of the different sheriffs, marshals, etc., who claim to be entitled to the reward of \$5,000 offered by them for the capture of the train robbers, Evans and Sontag. To-day they filed a complaint in the United States court in which they name as respondents George E. Gard, H. L. Rapelle, T. Jackson, T. Burns, G. Witt, W. E. Hall, E. H. Perkins, W. English, John Doe, Richard Doe, Henry Black, John Prime, Henry the Second, George the Third, Charles the Fourth and Henry the Fifth.

The complaint states that on the 3d day of August, 1892, a certain express car then used by said complainant, Wells, Fargo & Co., on a railroad train then operated by the Southern Pacific Company, was attacked near Collier Station, in the county of Fresno, state of California, and robbed of money and treasure to a large amount, belonging to said complainant Wells, Fargo & Co. The complaint then goes on to state that the company offered a reward of \$5,000 for the capture of Evans & Sontag, the alleged robbers. They have always been ready and willing to pay the reward to the proper parties, but that on account of so many people claiming the money and so many threats of lawsuits being brought against them they pray that the above respondents may be ordered to appear and answer to their complaint in order that the court may determine the right parties to whom to pay the money.

An Austrian Long-Distance Horse Race. VIENNA, July 29.—The Bosnian provincial government recently instituted a long-distance horse race between Bischofs and Serejevo, 180 miles. The roads are rough and mountainous. In all forty-seven competitors rode native horses. Nineteen of the riders were Austrian officers. Mohamedan, a land owner, won the prize, 12,000 crowns, given by Emperor Francis Joseph. He covered the course in 30 hours, 26 minutes. Three hours were used on the road.

A Revolting Tragedy. ALBUQUERQUE, N. M., July 29.—Freighters brought in word to-night of the murder of Maurice Gomez, a wealthy Italian sheepraiser, and his wife on their ranch east of here. An iron bolt was driven through the woman's body, pinning it to the floor. Robbery was the motive, and the robbers make it appear as if it was the work of Indians. The two children of the murdered parents cannot be found, and their fate is unknown.

An Overdose of Morphine. SPOKANE, Wash., July 29.—Kirk Hanna, the 19-year-old son of Mrs. M. B. Hanna, was found on the corner of Division street and Front avenue about 5 o'clock this morning in an unconscious condition. He was taken to the hospital and at 8 o'clock died. From his roommate it was learned that Hanna had taken morphine to relieve cramps and it is thought he took an overdose. He was a well-known and popular society man.

The Erie Receivership. PITTSBURG, July 29.—An application has been made in the United States circuit court by Treasurer Park for a receiver for the New York, Erie & Western road, as a supplement to the bill filed recently in New York. It is alleged that it has a total debt for wages, supplies, etc., of over \$5,000,000. John King and J. S. McCullough were appointed receivers.

Will Keep Out the Paupers. KANSAS CITY, July 29.—Chief of Police Speers has discovered a law in the statute books forbidding railway companies bringing paupers into the State. In view of the threatened invasion of unemployed and destitute men from Colorado he decided to enforce the law. All trains will be stopped by an officer of inspection at the state line and paupers will not be allowed to come into the State.

To Aid Their Kansas Brethren. RICH HILL, Mo., July 27.—A general strike of all the miners in this district was inaugurated to-day. The men want the privilege of organizing themselves into unions, an increase of wages and to aid their Kansas brethren. From 1,800 to 2,000 men are out.

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the convenience of guests. Jack Godfrey serves a first-class meal and fresh oysters in every style at the Palace Restaurant. Meals at all hours.

A ROW IN THE COMMONS.

The British house of commons, which has the reputation of being one of the most disorderly deliberative assemblies in the world, has experienced a scene which would have disgraced a San Francisco primary meeting in the days when Higgins and Buckley controlled the Republican and Democratic parties respectively. Joseph Chamberlain, who a few years ago was an extreme Liberal, was delivering the closing speech against the home rule bill. He alluded to Gladstone as "Herod," but before he had finished the sentence T. P. O'Connor sprang to his feet and shouted "Judah." This cry was taken up and echoed through the house. Confusion ensued and a regular free fight followed in which hats were battered and eyes blackened. The chairman was unable to restore order and Speaker Peel was sent for, and as he entered the house, stern and dignified, the Conservatives pointed to Gladstone, and exclaimed "there sits the cause of the trouble." The speaker appealed to the party leaders to tell him what occurred, and upon hearing what Gladstone and Balfour had to say decided that the expression was used in the heat and irritation of the moment, accepted O'Connor's apology and the house proceeded to business. The home rule bill as amended in committee was reported, and with a grand outburst of cheers for Gladstone the house adjourned.

Continuation of American Goods. Commodities have been coming in steadily from the United States, which are conducted on a gigantic scale in Europe. The Germans repeat the American sewing machines, stoves and all sorts of tools, substituting iron for steel. They mark them with the names and brands of Yankee manufacturers and send them to South America, Africa and all over the world. Though of wretched quality they are cheap and actually crowd out the real American goods. In this fashion iron manchettes are substituted for our own steel ones in South America, and Colt's and Remington's revolvers are bartered, as one might say, in the cheapest possible materials. American machines are taken apart, and the pieces are copied with iron castings, which are put together to form clumsy counterfeits. This is done with all of the finest agricultural implements.

The imitations lead the observer to speculate as to the probable period of time during which the world would have been without such useful inventions if it had been left to Europeans to discover them. Ingenious Brits are making counterfeit copies of Yankee textile fabrics, and the looms of Manchester are turning out millions of yards of cotton annually which bear the names and brands of American manufacturers. These cottons are marketed in China because the Chinese have a liking for products of this sort from the United States. They are very heavily "stayed" with white of egg to give them a good appearance. Of course the "staying" does not stand a wash. One consul in China has suggested that an umbrella should be sold with each bolt of such cottons, inasmuch as a lady who happens to be caught by a shower in a nice cotton dress too often comes home wearing a mosquito bar.

In the same way American sheetings, muslins and calicoes are being driven out of Central American markets by wretched goods made from East Indian and Egyptian short staple cotton and bearing the trade mark of the best American mills.—Boston Transcript

The Best Ten American Books. The vote of The Critic's readers on the ten books which they regard as "the greatest yet produced in America or by Americans" has resulted in the following choice: Emerson's *Essays*, Hawthorne's *Scarlet Letter*, "Uncle Tom's Cabin," Dr. Holmes' *Autocrat*, Irving's *Sketch Book*, Lowell's *Poems*, Whitier's *Poems*, Wallace's *Ben-Hur*, Motley's *Rise of the Dutch Republic*.

Will Heed Himself a \$10 Funeral. The will of the late William John Macdonald of Liverpool, who died on the 4th of March, leaving an estate valued at \$4,151.04, was filed for probate yesterday. A strange clause in the will is that regarding the funeral of the deceased, which he requires shall not cost more than \$10, and he gives the most minute directions as to how the funeral can be conducted on this economical scale.—Toronto Mail.

BORN.

RUCKTESCHLER.—In Winnemucca, July 28, 1893, to the wife of A. Ruckteschler, a son.

PEOPLE FIND

That it is not wise to experiment with cheap compounds purporting to be blood-purifiers, but which have no real medicinal value. To make use of any other than the old standard AYER'S Sarsaparilla—the Superior Blood-purifier—is simply to invite loss of time, money, and health. If you are afflicted with Scrofula, Catarrh, Rheumatism, Dyspepsia, Eczema, Running Sores, Tumors, or any other blood disease, be assured that

It Pays to Use AYER'S Sarsaparilla, and AYER'S only. AYER'S Sarsaparilla can always be depended upon. It does not vary. It is always the same in quality, quantity, and effect. It is superior in combination, proportion, appearance, and in all that goes to build up the system weakened by disease and pain. It searches out all impurities in the blood and expels them by the natural channels.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

Cures others, will cure you

A GENTLE WOMAN

Wishes a toilet cream to promote that

Brilliant Transparency of the skin, which is the true beauty of the complexion. For—there is to have the true fragrance of the flowers and the restorative action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

She wishes the refreshing, softening effect of the best and most fragrant ingredients blended into a perfect cream. She finds it in Coccona Cream and will have no other.

She never uses the paints and face bleaches which are so injurious to the skin.

GENTLEMEN after shaving find Coccona Cream most excellent.

COCOONA WATER is the natural fragrance of flowers for the toilet and bath.

COCOONA BALM Prevents and Heals chapping, breaking and roughness of the skin.

THE COCOONA TOILET SPECIALTIES are manufactured only by the Coccona Company.

SAN FRANCISCO, CAL.,

and we have secured the agency of same, as it is our constant effort to supply the public with the finest and latest Toilet Articles and the purest of Drugs and Medicines.
